

MP 6 L

Powder Mixer

The MP 6 powder mixer is equipped with a stainless steel AISI 316 container available in biconical shape with a capacity of 5,10 and 15 liters; in cylindrical shape with a capacity of 1, 3, 5 and 10 liters, or in , "V" shape with a capacity of 1.5, 3, 5 and 12 liters.

Containers can be filled with stainless steel caps and shafts with fixed vanes to break up lumps of powder in order to guarantee a perfect mixing.

Containers are easy to clean, wash and sanitize.

A touch screen's installed on the machine and is connected to a PLC Siemens to allow the setting of function in the mixing process such as duration, rotation speed and inversion time of the rotation.

MAX ROTATION TIME H	99 min	DIMENSIONS LXWXH	86x54 - 68x55 - 94 cm
ADJUSTABLE SPEED	0÷30 RPM	WEIGHT	50 kg
POWER CONSUMPTION	0,35 KW	ACCESSORIES	Biconical containers 5-10-15 l; "V" containers 1.5-3-5-12 l; Cylindrical containers 1-3-5-10 l; Clamp for plastic bottles; Flow-breaking vanes
POWER SUPPLY V	230/110 Single Phase 50/60 hz
